1/ Aiilog Ltd

Website: https://www.tallgeese.ai/

ESG

RegTech

Aiilog specialize in AI solution development and distribution. Our AI solutions include: Edge AI workstation and private AI cloud deployment; Private AI deployment; AI knowledge management for R&D, education, and corporations; Document and receipt processing; Data analysis and report generation and more.

Our solutions are ideal for financial industry, R&D, education, manufacturers, and corporations.

Key Solutions
Tallgeese AI Industry-Leading Accuracy: - Achieve up to 92% precision in data retrieval with advanced RAG technology. Trusted Answers - Effective suppression of hallucinations; responses remain strictly within verified training data. Flexible Deployment - Run AI on on-premise edge devices or private clouds, ensuring data privacy and regulatory compliance. Seamless Integration - APIs allow easy integration into existing systems and customization of AI applications.

2/ AlgoBot Limited

Website: https://apihub.algobot-sgx.ai/

Digital Assets

Wealth & Investment

AlgoBot is a wealthtech platform that crowdsources top-performing algorithms globally and connects them with asset management firms to create innovative algo financial products.

Key Solutions
- **AI agentic robo-advisor** for personalized investment advice - **Avatar investor relations** for enhanced client engagement - **AI asset management tools** for optimizing investment strategies, and curated portfolios available for subscription by global private banks.

3/ Algreen

Website: https://algreentech.com/

HealthTech

ESG

AlGreen is a startup that aims to produce renewable and sustainable biofuels derived from algae.

Key Solutions
- **-VAYU =** microalgae-powered air purifier - **-OAK =** The Liquid Tree

4/ Applied Technology Group Limited

HealthTech

Website: https://www.atg.ai/

Founded in 2016, Applied Technology Group Limited aims at developing a comprehensive healthcare management system for the next generation of Smart Clinic.

Key Solutions
- **EneHUB =** first AI powered Point-of-Health for healthcare and mental wellness

5/ Aura Labs Limited

ESG

Website: https://www.auralabs.com.hk/

Aura Labs is a PropTech company dedicated to driving digital transformation in the real estate industry. Our mission is to help CRE enterprises unlock new value from their property assets through data. At Aura Labs, we are committed to measurable impact that enhances operational efficiency, enriches tenant and visitor experiences, and promotes sustainability within any built environment.

Key Solutions
SeerOS - a building operating system that seamlessly integrates building data and systems onto a unified platform for control, automation, data disclosure, and management. - substantial energy savings (up to 8-25% in costs and emissions) - streamlined operational processes (with facility management workflows reduced by up to 28%)

6/ Aurabeat Technology Ltd

Website: https://aurabeattech.com/

ESG

Aurabeat Technology is a Hong Kong-based innovator in air purification and energy conservation solutions.

Key Solutions
EcoSonic System - an innovative energy-saving technology that enhances air filtration systems - stringent G4 filtration standards - high efficiency on MERV 13 and MERV 14 performance

7/ Booguu Company Limited

Website: https://www.booguu.bio/

HealthTech

Booguu uses AI-powered wearable based motion analysis to help older adults improve their balance, strength, mobility, and reduce their risk of falls.

Key Solutions
Aspire Motion® AI Mobility Health Platform - use one small wearable to objectively identify hidden declines in balance, mobility, and strength associated with risk of falls and fractures - The assessments take as little as 90 seconds, with results strongly correlated to clinical assessments needing 30 minutes to perform. - provide personalized and risk specific recommendations. These include targeted therapy and the capability to remotely monitor progress and change.

8/ Buy&Ship

Payment

Website: https://www.buyandship.today/

Buy&Ship's mission is to become consumers' first destination for shopping in Asia. Connecting you to the ultimate deals for all your desires, right at your fingertips.

Product includes, digitalize cross border shipping service tailored for consumer, automated shopping assistant and AI Global price comparison.

Key Solutions
Buyforyou - Through our proxy service, users can buy in Hong Kong dollars (or other local currencies like Taiwan Dollars, Singapore Dollars, etc) and purchase items globally, even in hard-to-manage countries like Japan, Korea, Thailand and Europe

9/ Circular Health Limited

HealthTech

Website: https://www.circular.xyz/

Circular is a next-generation predictive health platform including a smart ring designed for those serious about their health. Lightweight and elegant, it delivers continuous 24/7 monitoring of 140+ biomarkers—including sleep, heart rate, HRV, temperature, and 13+ features for health improvement. Circular is the only smart ring with an ECG sensor allowing FDA-cleared arrhythmia monitoring, bringing clinical-grade insights into everyday life with future blood pressure and glucose monitoring. Paired with its AI assistant Kira, Circular turns raw data into actionable health guidance. With gamified rewards, customizable alerts, and a growing ecosystem, Circular helps users stay ahead of their health.

Key Solutions
Circular Ring 2 = the first smart ring with an integrated ECG and FDA-cleared arrhythmia detection, bringing clinical-grade heart health monitoring into everyday life. Our AI-powered health assistant transforms complex holistic tracking biometrics into clear, personalized insights and proactively guides users toward healthier choices. Users are rewarded for positive health behaviors with real-life incentives, creating an engaging ecosystem grounded in science.

10/ Coraleus Limited

Website: https://www.coraleus.com/

Digital Assets
Blockchain
ESG
RegTech
Payment

Coraleus, a regtech solution provider established in 2018, dedicated to develop cutting-edge compliance technology. These include an AI-driven name screening tool, sophisticated customer risk assessment, real-time payment monitoring, and fraud detection. By leveraging a diverse range of AI technologies, our solutions strive to enhance alert precision and minimize false positives, a persistent challenge in the compliance sector.

Key Solutions
iSEM.ai - a comprehensive anti-money laundering and anti-fraud solution that offers name screening service that able to adapt with various advanced watchlist data provider. - The fraud monitoring module provides real-time alerts, leveraging AI fuzzy logic, KYC data, digital footprints, and behavioral patterns to enable prompt actions by banks

11/ Datago Technology Limited

Website: https://www.datago.com.hk/

Wealth & Investment

Datago Technology Limited is a financial technology company primarily focused on providing textual data analytics. By leveraging big data and artificial intelligence technologies to process large-scale text data from comprehensive sources like news, reports, and social media, we provide quantitative and easy-to-use structured data analytics for capital markets in Asia and emerging markets globally.

With our information-rich knowledge graph and real-time data analytics services, clients can quickly and easily extract value and insights from large amounts of information. Our products help clients to enhance returns, reduce risk and improve operational efficiency.

Key Solutions
Text analytics services - provides quantitative and easy-to-use structured data analytics for banking and financial services in APAC markets and globally - help clients to enhance investment returns, reduce risk and improve operational efficiency - provide retail investor sentiment analytics for investment in APAC markets

12/ EC Innovation Limited

Website: https://www.ecinno.org/

ESG

EC Innovation Limited is constructing a circular planting ecosystem with its patented electrocatalytic wastewater treatment system, treating wastewater into toxic-free and nutrient-balanced irrigating water, constructing an ultra effective and resilient irrigation system.

Key Solutions
EC Flow System - The patented electrocatalytic AIOT wastewater treatment system, treating wastewater into toxic-free and nutrient-balanced irrigating water, constructing an ultra-effective and resilient irrigation system. - improve lifetime of urban plants by 30-50%, boost crop yield by 30%, and save 30% water used for irrigation, bringing significant economic and environmental benefits to urban planting and smart agriculture industries.

13/ Emali Limited

Website: https://emali.limited/

Digital Assets
Blockchain
Web 3
RegTech
Payment

Emali Limited enables our clients to explore and implement stablecoin, digital currency, and digital trust solutions effectively. By allowing them to clearly navigate from compliance, security, and reliability to financial operations. We are ensuring that our clients can truly maximize their value from the fast-changing digital economy.

Key Solutions
Web3 Advisory Services - Stablecoin, Digital currency, Tokenization, DID - Use Case Advisory - Technical Integration Advisory - Technical and Non-technical auditing **Education Services**

14/ Eureka FinTech Limited

Website: https://www.eurekafintech.com/

ESG

RegTech

Eureka FinTech Limited aims to be a pioneer in providing innovative KYC and ESG information including supply-chain information, AML, ESG and compliance solutions to manufacturers and financial institutions across Asia via its comprehensive financial services platform and bespoke consulting services.

Key Solutions
4D KYC = a comprehensive platform integrates into one single platform big data, private data vendor databases and customers' internal data by utilizing AI and graph technologies.

15/ Gaiamesh Limited

Website: http://www.gaiamesh.com/

ESG

Gaiamesh is an AIoT-based climate tech company that aims to solve the widespread problem of overly complex building automation to make a dent on the global carbon curve.

Gaiamesh is a wireless, plug-and-play smart building control system that makes it easy for building owners to save energy. By unlocking energy savings in operational buildings through rapid energy-efficiency retrofits, we can create a $150B dollar market. Our unique decentralized mesh control technology enables fast, stable and secure wireless control, patented in USA and China, with a proven track records with 250+ projects across 5 countries in APAC.

Key Solutions
Lightweight Energy Efficiency Health Check report - automatically generates recommendations for plug-and-play self-optimizing controls ranked by ROI. Cloud-optimized predictive controls are embedded in local mesh network. - Decentralized mesh control capability embedded into large ecosystem of 3rd party products (100+ devices onboarded across heating, cooling, electrical, lighting, and water systems)

16/ GF Lab International Limited

HealthTech

Website: https://silvercare.gofa.co/zh

GF Lab International Limited (GOFA) is a pioneering Hong Kong–based health-tech company dedicated to revolutionizing preventive healthcare and active aging. Our core technology is a patented AI engine that transforms standard mobile devices and tablets into clinical-grade assessment, coaching, and rehabilitation tools. We offer a flexible web-app and API solution, allowing for seamless integration into existing healthcare, insurance, and senior care ecosystems. This enables our partners to deploy our powerful technology quickly and efficiently within their own platforms and workflows.

Key Solutions
GOFA SilverCare - The AI-Powered Fall Prevention Coach - The platform proactively predicts fall and frailty risks through automated motion analysis, while also screening for other related health conditions. Beyond assessment, it provides immediate intervention through personalized, guided exercises to build strength and improve balance. - the 24/7 AI wellness chatbot that delivers personalized coaching, tailored diet advice, and daily health tips

17/ GPTBots Hong Kong Limited

RegTech

Website: https://www.gptbots.ai/

GPTBots.ai provides end-to-end AI solutions for enterprises, implementing AI agents across customer service, knowledge search, data analysis, leads generation and more—empowering businesses to lead in the AI era.

Key Solutions
GPTBots.ai = an enterprise-grade AI Agent development and management platform focused on helping businesses rapidly build AI solutions deeply aligned with their operations through no-code/low-code tools and modular architecture.

18/ HEI CHING INTERNATIONAL GROUP LIMITED

HealthTech

Website: https://www.heic-hk.com/

Hei Ching International Group Limited is a provider of Innovative Medical-grade Telehealth Solutions with a specific focus on R&D, advancement, and community deployment of Remote Patient Monitoring. Our solutions are developed through the interdisciplinary collaboration of industry leaders in IT, MedTech, Sensors, IoT Automation, and spearheaded by world-class business consultants in Technology Transformation.

Key Solutions
Intelligent RPM Nurse Stations & Examination Kiosks/ Home-Use Kits - Our services are provided over a medical-grade operating platform with FDA/NMPA-cleared devices and equipment including Stethoscope/Otoscope/Dermatoscope.

19/ Hong Kong Data Infinity Technology Co., Limited

Blockchain

Web 3

Website: https://about.ichaingo.com/

HONG KONG DATA INFINITY TECHNOLOGY CO., LIMITED(ichaingo) is a startup technology company founded in Hong Kong in 2023 as a Web3.0 data service provider based on artificial intelligence and big data technologies.

Key Solutions
ichaingo Search, ichaingo Chat, Data Open Platform, Consulting/Customized Services. - it provides accurate and transparent data analysis and query services for Web3 ecosystem participants

20/ Hong Kong International New Economic Research Institude Limited

Website: http://www.ineri.net/

Digital Assets
Blockchain
Web 3

As a company focused on Web3 and the new economy, we are committed to building a non-financial real-world asset (RWA) exchange, pioneering a new tokenized asset class unregulated by securities, commodities, or financial products. Our platform supports compliant, secure, and scalable trading of unique real-world assets such as collectibles, cultural products, and ecosystem-based tokens

ESG

Website: https://www.neufast.com/

Neufast is an Innovation service provider in talent acquisition with AI-powered Applicant Tracking System integrated with AI video interview and skilled tests in 20 language with over 46,000 candidates screened.

We offer Educational version for local universities

Key Solutions
Neufast Talent Acquisition solution - is patent-filed for PII REDACTION in compliance with PDPO and GDPR coupled with ISO27001:2022 certificate. - Over 46,000 job candidates were screened - assessed for reducing hiring cost for our BFSI clients by upto 80% by reducing candidate screening time at 91% reliability and 95% F1 score for AI classification accuracy. - We adopt ethical AI principles for Diversity and Inclusion in recruitment practices for Equal Opportunities.

26/ Pantheon Lab Limited

Website: https://www.pantheonlab.ai/

Digital Assets

Pantheon Lab Limited is a Generative AI company offering advanced agentic AI solutions and digital human technology as a service since 2019. Our innovative solutions have garnered widespread recognition, enhancing user engagement and optimizing operational efficiency.

Key Solutions
AIDOL - Agentic AI x Meta Human - combines cutting-edge generative AI with hyper-realistic avatars to create immersive, interactive experiences which excel as a tool for internal and external application. - Offering 24/7 assistance in multiple languages

27/ PerksBar Limited

Website: https://www.perksbar.com/

HealthTech

ESG

PerksBar is a Hong Kong-based HR solutions startup focused on improving employee happiness and engagement. We help organizations attract, retain, and motivate talent through a gamification-driven digital platform offering personalized perks, recognition, and wellness programs.

Key Solutions
Perksbar application - a robust platform that combines rewards, interactive content, and seamless communication

28/ PressLogic

Website: https://www.presslogic.ai/

Digital Assets
Blockchain
Web 3

PressLogic is a leading Ad-Tech ecosystem known for leveraging AI and advanced advertising technology to provide innovative total digital marketing solutions and content strategies, boasting over 20 million followers on social media across the Asia Pacific region.

Key Solutions
- **Marketing Technology** - **Advertising Technology** - **MediaLens** - **ChatBooster**

29/ Radica Systems Limited

Website: https://www.radicasys.com/

Digital Assets

RADICA was founded in 2000, headquartered in Hong Kong with 2 regional offices at Guangzhou and Shanghai. We focus on growing the value of their customer database by making wise use of data analytics in direct marketing. Over 300 enterprises are using our direct marketing platform to deliver millions of email/ SMS to their customers every day. Our consulting service team helps our clients to develop e-marketing ideas and put their plan into action.

Striving for a breakthrough in big data technology, we have established RADICA Data Lab, as co-operated with Tongyi Industrial Group Center for Electronic Commerce and the Hong Kong University of Science and Technology in 2014.

Key Solutions
SaaS and one platform with multiple digital marketing channels - includes broadcasting channels (email, SMS, App notification, mobile app inbox message, survey form), IM channels (WhatsApp, WeChat, FB messenger, Discord) and social media channels (FB, IG, Twitter, Weibo). - integrated different data sources, such as eCommerce, CRM. - provides OpenAPI for enterprise customers - link up data relationships from different channels, collect end-user behaviours (e.g. email open/click, FB like and so on). Based on these data, our platform will provide different decision-making, business recommendation, and data virtualization via machine learning. - All systems are deployed on Clouds (Aliyun, AWS) and we are using K8S to manage our containers.

30/ SilverX Limited

Website: https://tikcare.co/

HealthTech

TikCare revolutionizes health management by weaving in proactive AI assistants throughout the care journey to improve clinical efficiency and streamline patient engagement. We empower healthcare providers and insurers to focus on patient care and differentiate their offerings.

Key Solutions
Sophie – Medical Report Scribe - For healthcare providers: AI automatically fills out insurance claim forms and auto-suggests medical codes just by uploading handwriting, clinical documents and discharge summaries. - For insurers: AI speeds up the review of claim forms and supporting documents by providing evidence-based and traceable response for truth-grounding to detect inconsistencies and potential fraud. **Carrie – AI Nurse** - AI Vitals Selfie: Capture vital signs and biomarkers with dual US FDA-cleared technology by using smartphones. Received two US FDA 510k clearance as Class II software as a medical device for contactless heart rate and respiration rate measurement as accurate as within +/- 2bpm. - Provide symptoms checking to provide personalized recommendations from intake, triaging and care education. - Mental health mode supports early detection of depression and anxiety risks, triage to appropriate practitioners and automate patient intake.

31/ SoePay Limited

Website: https://soepay.com/

Payment

SoePay became one of subsidiary companies of Spectra Technologies Holdings Co. Ltd. in 2021. We aims to enable the merchants to accept different kinds of payments in any form. We develop and promote the latest payment technologies. We help all types of merchants get a more robust, secure, and fast one-stop payment experience.

Key Solutions
SoePay - a payment solution for accepting contactless credit card and QR code payments on smart devices without requiring additional hardware. Enabling merchants to securely accept card payments and is especially suitable for events, markets, and food delivery. - SoePay SoftPOS accepts various kinds of payments, contactless Visa and Mastercard, Apple Pay, Samsung Pay, Google Pay, and Alipay, Wechat Pay

32/ VeServe Company Limited

Website: https://veservecompany.com/

RegTech

VeServe delivers intelligent automation solutions across omni-channel customer interactions. Its strengths lie in GenAI-powered platforms for real-time voice and message analytics, conversational computing, and compliance tracking—including voice call analysis to detect mis-selling and regulatory breaches. VeServe's solutions optimize customer engagement, workflow automation, and reporting, with a focus on compliance and regtech for tightly regulated industries.

Key Solutions
ThruV Platform - an all-in-one omnichannel communications management system offers centralized monitoring of contact center operations, in-depth campaign performance analytics, and complete audit trails to support quality control and regulatory compliance requirements. - Regulatory Voice Intelligence Module: enables authorized staff to initiate outbound compliance calls, during which each term and condition (T&C) item is played to the customer using advanced text-to-speech technology or selectable pre-recorded audio clips. - AI-powered Call Analytics Module: Utilizing state-of-the-art GenAI technology, this module automates the analysis of voice calls for compliance monitoring and quality assurance.

33/ XOOCITY Meta Technology Ltd.

Website: https://www.xoocity.com

Digital Assets

Web 3

Payment

Xoocity is a global WEB3 commercial metaverse with a focus on cultural and artistic exchange between the East and the West. Through the CitiFi model and leveraging blockchain technology, Xoocity facilitates borderless cultural integration, offering diverse products and services such as enterprise metaverse construction, cross border B2B2C marketplaces, brand NFT design, and digital asset development.

Key Solutions
XooRWA = an innovative Web3 digital asset chain project that focuses on planning and issuing brand NFT/RWA to assist brands in their digital transformation journey

34/ Actywell Digital Limited

Website: https://www.heraleto.com/

HealthTech

Actywell Digital Limited, founded in 2015, is a healthcare technology company based in Hong Kong. We specialise in bio-signal acquisition through innovative in-ear sensing devices. Our company focuses on product sales and future analytics sales ranging from consumer grade to medical grade, with the dedication of delivering accurate and readily accessible health data to encourage active health monitoring. Under our brand, Hera Leto, we offer a diverse range of products designed for various applications, including rehabilitation, sleep monitoring, occupational health, and mental wellness.

Key Solutions
Hera Leto Clips = a next-generation wearable designed to address mental health risks through a fusion of comfort, precision, and intelligent design. This device offers a secure and ergonomic fit, making it ideal for extended daily use. It features advanced bio-signal detection technology to monitor stress levels and emotional states with high accuracy, while its ambient-aware audio playback promotes relaxation and mindfulness. By combining seamless wearability with targeted mental wellness support, the Hera Leto Clip redefines how we care for our minds — quietly, intuitively, and effectively.

35/ One Healthcare Medtech Co. Ltd.

Website: https://www.doctorq.com/#/tabs/home

HealthTech

Blockchain

Doctor Q is a Hong Kong-based online medical platform. Beyond serving the local Hong Kong market, Doctor Q has expanded its business across borders. The platform assists Hong Kong doctors in obtaining mainland medical licenses, enabling them to offer remote consultations to patients in Mainland China. Doctor Q has also established formal collaborations with 8 hospitals in the Greater Bay Area, allowing Hong Kong doctors to provide telemedicine services directly to hospital patients. In addition, Doctor Q ensures the legal delivery of Hong Kong-prescribed medications to patients in Mainland China, further supporting cross-border healthcare needs.

Key Solutions
Doctor Q Online Medical Platform = an online medical platform that connects patients with a diverse network of healthcare professionals, including Western medicine doctors, Chinese medicine practitioners, dentists, chiropractors, and registered therapists. With dozens of qualified medical professionals on board, the platform helps practitioners reach new clients and provides convenient access to health services for users by online booking and telemedicine.

36/ Digital Domain Enterprises Group Limited

Website: https://digitaldomain.com/

 # Digital Assets

Digital Domain creates transportive experiences that entertain, inform, and inspire. Throughout the last 30 years, Digital Domain has grown to lead the visual effects industry, expanding globally the arm of virtual humans and visualization. Digital Domain and its predecessor entities have been a pioneering force in the realm of visual effects and media applications, seamlessly blending artistry and cutting-edge technology to elevate hundreds of feature films and episodes, thousands of advertisements, game cinematics, and experimental immersive experiences.

Digital Domain has offices in Hong Kong, Los Angeles, Vancouver, Montreal, Hyderabad, Shanghai, Beijing, Shenzhen, Taipei and Luxembourg.

Key Solutions
Artificial Intelligence (AI) Virtual Human Technology - specializes in creating customized virtual ambassadors designed with realistic expressions and real-time interactions, fostering deeper emotional connections with users while showcasing innovative brand features. By integrating AI, natural language processing (NLP), and robust knowledge bases, these AI virtual humans can provide AI-driven customer service, offering real-time product inquiries and financial advice. Their multilingual and 24/7 availability make them ideal for a diverse global customer base. In addition to customer engagement, AI virtual humans excel in internal training, ensuring consistent and scalable learning experience.

37/ Wonder Technologies Limited

Website: https://wonder.app/

 # Payment

Wonder empowers over 10,000 businesses in Hong Kong with an all-in-one fintech platform to manage finances and fuel growth. Supporting 34+ payment methods, our tools—Wonder App, Terminal, Dashboard, and Card—enable seamless online and offline transactions. With a 7-minute e-KYC onboarding and transparent pricing, Wonder delivers unparalleled value for all payment needs.

Key Solutions
Online + Offline Payment Solutions = (include but not limited to in-app SDK, online payment gateway, Recurring Payment **Card Issuance**
